Nature Gives You a Warning Before It Strikes

Our Machines are now in thousands of such prominent homes and endorsed by the medical profession to be one of the best of its kind.

And if this machine had not accomplished something beyond the extraordinary, we could not produce such testimonials and copies of original letters as we inclose you herewith.

A THIRTY DAY TRIAL OF THIS MACHINE MEANS A SALE

SO DO NOT OVERLOOK THIS OPPORTUNITY

Detroit, Mich., March 8th, 1916.

Roche Electric Machine Co.,
414 Bowles Bldg., Detroit, Mich.

Dear Sir—

It gives me pleasure to record the splendid results I have obtained from the use of the Roche Electric Hygienic Machine, I purchased from you the middle of last month.

Last December I was stricken with paralysis, which left me in quite a helpless condition. I had been taking treatments in one of the best known sanitoriums in this city, when my attention was drawn to your machine. It was difficult for me to continue with these baths and rubs, besides I could not see that they were doing me any material good, so I decided to give your Roche Machine a trial.

Your first treatment convinced me of its exceptional qualities. I had only used the machine five days when good results began to make their appearances; the dull feeling I had in my head left me and my nerves began to feel calm and restful.

I have used the machine now about three weeks and the results obtained are wonderful. I would highly recommend this machine to any one, who, like myself needs an increase of circulation and a reviving of the nerves.

Respectfully, DR. A. E. MILLS.

Forty and no/100 DOLLARS
Lewis H. Withey
MICH. LITHO. CO. GRAND RAPIDS.

From Dr. G. A. Frasier, M. D., 740 Elizabeth St., Flint, Mich.

Dr. Frasier, who has been suffering from paralysis, purchased our machine January 8, takes his treatments twice a day, says his circulation has improved wonderfully. He goes to bed now without hot water bottles or hot bricks to keep warm. He is more than pleased with the machine, and sees a remarkable improvement in his condition.

Yours Truly
James Abernethy

The Roche Electric Hygienic Machine

FOR MEDICAL AND HOME USE

Manufactured by the

Roche Electric Machine Company

GRAND RAPIDS, MICH.

Dear Friend:

This will once more introduce to you the Roche Electric Hygienic Machine which we ship directly from our factory. We also wish to call your attention to the marked sale and success this machine has met with in our home town, and as a favor, would ask you to give this your careful consideration.

The Roche Electric Hygienic Machine was invented and patented by Prof. J. B. Roche, who has had years of practical experience in giving hygienic treatments in some of the well known sanitariums and health resorts throughout the United States; and it is through giving these treatments that Prof. Roche has brought out this wonderful machine for medical and home treatments.

This machine is not a vibrator, but gives to the general system what is known as a pulsorating and atotomical effect. It generates its own power, stored in dry cells; thus doing away with any possibility of fatal shocks through short circuit. There are no wires to connect. All you have to do is to turn on the switch and everything is in readiness. The total cost of operating this machine is about 90c per year.

It is by pouring this vitalizing current of electricity into the system once every twenty-four hours that our machine wards off and overcomes many diseases, as the following pages will explain. If you are in any way troubled with poor circulation, nerve trouble, varicose veins, or any other of the ailments described in our booklets and circulars, we cannot urge too greatly the use of our machine, as it has accomplished something beyond the ordinary or the testimonials would not be there, and they are from the most prominent business men throughout the United States. As manufacturers of electrical appliances we also build High Frequency or Violent Ray Machines of special design and our goods are sold on a guarantee.

For further information write us, and we will send you one of our booklets explaining everything in detail.

Respectfully,

ROCHE ELECTRIC MACHINE CO.

From R. P. Tietsort, President of the Royal Furniture Co.

Grand Rapids, Mich.

Roche Electric Machine Co.,
City.

Gentlemen:

I am enclosing my check for the Roche Electric Hygienic Machine and by the way, I want to tell you how pleased I am with it. I use it twice each day, night and morning, because I realize what it means to one to get the benefit of the increased circulation. It starts me off in fine condition for the day.

I hope you will have splendid sales on them, and you may use my name at any time.

Yours truly,

R. P. TIETSORT.

From F. A. Voigt, President of the Voigt Milling Co.

Grand Rapids, Mich.

Roche Electric Machine Co., City.

Gentlemen:

I am more than pleased to recommend your Roche Electric Hygienic Machine, for I know it is all you claim it to be for poor circulation and lack of exercise; in fact, in my own case, it reduced a couple of varicose veins, which was a surprise. Your machine certainly puts new life into a person, and I can vouch for its good benefits to anyone whom you would recommend it. You certainly are doing good work for a good cause, and have my best wishes.

Yours sincerely,

(Signed) F. A. VOIGT.

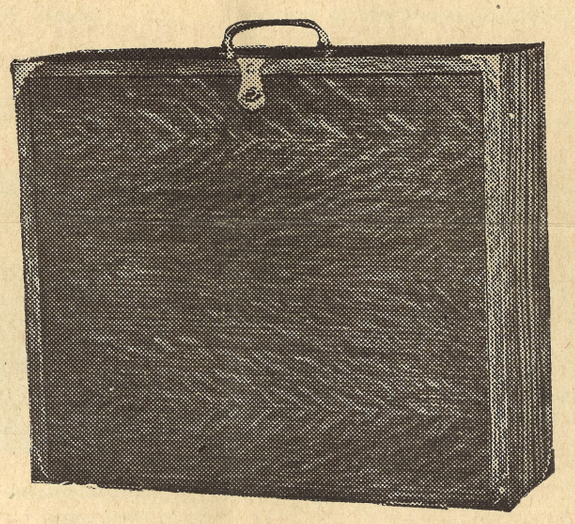
The Roche Electri

ELECTRICITY is the Spark of Life, Says Pr

The WELL KNOWN HYGIENIC INSTRUCTOR in PHYSICAL SCIENCE, and INVEN

THE ROCHE ELECTRIC HYGIENIC MACHINE is no experiment. It has been universally successful. Prof. Roche is now offering to the public his new Electric Hygienic Machine for medical and home treatment. Be your own master, don't be a slave to **diseases** such as **paralysis, locomotor ataxia, vertigo, apoplexy, neuritis, rheumatism, lumbago, gout** or **hardening of the arteries.** Remember the majority of these troubles are caused from poor circulation and lack of proper exercise. If you are intelligent and wise you will recognize that the only permanent and positive manner of maintaining perfect health is through the application of Electrics, Rubbing and Massage. Prof. Roche has used this system of Hygienic treatment for the past 30 years, and there is not another such a direct and effective way of appealing to nature or making use of nature's laws for physical or mental improvement or advancement as by the use of the Roche Electric

SHOULD BE IN EVERY HOME



The above cut shows the Roche Electric Hygienic Machine. It is highly finished in a quarter-sawed oak casing, and all nicheled trimmings. The machine is 16 inches long, 14 inches wide, by 6 inches deep.

From Mr. ——, Illinois Plant Company
70 S. Batavia Ave.

Batavia, Ill.

The Roche Electric Machine Company,
Grand Rapids, Michigan.

Gentlemen:

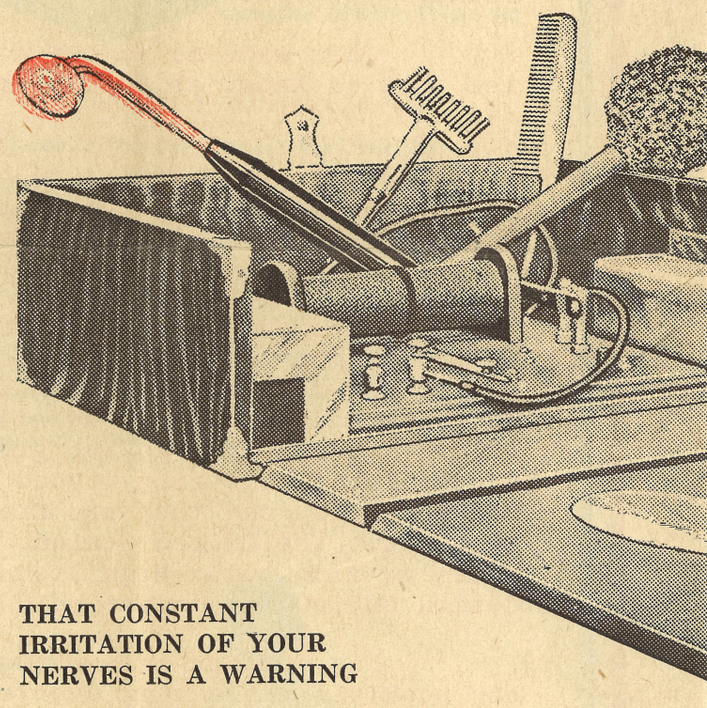
Some months ago I purchased one of your Roche Electric Hygienic Machines and have been using it practically once every day, and sometimes twice. My nerves and circulation are greatly improved and I feel more like myself.

How long will these batteries last and where do I send to get new ones?

Now I do not want any publicity, but nevertheless your machine is O. K.

Very truly yours,

Mr.....



THAT CONSTANT IRRITATION OF YOUR NERVES IS A WARNING

Showing the apparatus ready for use. The case has a folding bo

Prof. J. B. Roche taking his usual Electric Treatment before retiring.

From Mr. F. W. Court, Wholesale Dealer and Shipper
Marshall, Michigan, Oct. 19.

The Roche Electric Machine Company,
Grand Rapids, Michigan

Gentlemen:

In the spring of 1918 I purchased one of your Roche Electric Hygienic Machines and I am glad to say that I am very much pleased with it and would not want to be without it for twice what it cost.

Myself and family have enjoyed taking these treatments for the past years, and we have a pet name for our machine. When anything goes wrong in our family we say, "Get out the Little Doctor."

A friend of ours is suffering from Neuritis and the doctor does not do much to help her. Do you recommend your machine for Neuritis. Now if you will give me this information in regards to this trouble, I will try and have her use my machine. Have you made any improvements in your makes of machines and what are the present prices?

An early reply will be greatly appreciated.

Yours truly,

F. W. COURT

THE ROCHE ELECTRIC HYGEINIC MACHINES

From Dr. F. J. Dickey, written to Mr. W. H. Patterson who recommended the machine to him. Dr. Dickey is one of Dallas's most prominent physicians and surgeons.

Dallas, Texas.

Mr. W. H. Patterson,
Dallas, Texas.
Dear Sir:—

In reply to your letter asking what I think of the Roche Electric Machine will say: The improvement in my physical condition by using the Roche Electric Machine for the past six months has been wonderful. My health is better and can do more work than for several years. Did not think such a thing was possible. It is certainly the old man's friend.

Yours truly,
(Signed) F. J. Dickey, M. D.

From Dr. Morgan, Who Conducts a Private Sanitarium at St. Petersburg, Fla.

St. Petersburg, Fla.

Roche Electric Machine Co.,
Grand Rapids, Mich.
Gentlemen:

The Roche Electric Machine I recently bought of you has given the most perfect satisfaction, and I take great pleasure in recommending your machine. A Mr. C. B. Stratton, some over 60 years of age, had a stroke of paralysis, causing a partial paralysis of the left arm and left leg and general system. I have been giving him treatments for the past month, and he has improved wonderfully. And I have recommended your machine to him. I wish to state that I am very much pleased with the results obtained in every instance to which I have applied it.

Very sincerely yours,
DR. THOMAS MORGAN.

From One of Chicago's Well Known Physicians

3446 State St., Chicago, Ill.

Roche Electric Machine Co.,
Grand Rapids, Mich.
Gentlemen:

After taking treatments with your machine now since receiving it on January 26, I must say that I am really at a loss to express the wonderful results that your machine has brought about, a service that mankind can hardly expect nor perceive.

Suffering with lumbago of the back and also with a local trouble, I find after taking 18 treatments that there is nothing like it. I had even visited a hot spring bath and there took 21 baths with but little relief. But, now, after using your machine my kidneys, liver and stomach perform their duties with the regularity of a clock, and my back feels that a large burden was taken from it. I now have more vitality and feel like a different man.

I shall work willingly to the advertisement of your machine, because I realize that it is a wonderful invention and help to mankind.

Yours obligingly,
S. L. LEWIS, M. D.

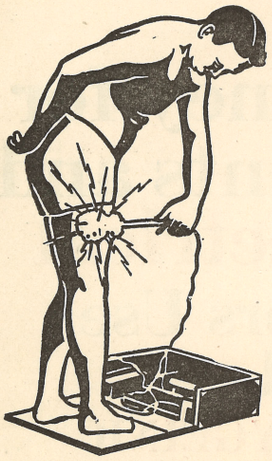
Don't be a Dead One At 50

DON'T FALL INTO THE ARMS OF DEATH



Invented and Patented by Prof. J. B. Roche, Jan. 19, 1915

Thousands of people go through their daily routine of life with a feeling of depression which destroys much of the pleasure of living. They are not sick in the general sense of the word, yet they are far from being well. Just dragging along in a nervous, haphazard manner, always looking for sympathy or advice, and as you know, everyone has a remedy or so-called "cure" and they easily fall victims of these unscrupulous methods and sooner or later Fall Into the Arms of Death. They worry over mere trifles not realizing that this is food for such serious diseases as **Diabetes,** High Blood Pressure, **Bright's Disease** and many other chronic ailments such as **Neuritis,** Lumbago, **Rheumatism,** Hardening of the Arteries, **Locomotor Ataxia,** Paralysis, **Constipation,** Prostrate Gland Trouble,etc. The attempt to continue without the proper treatment, thus robbing the system of its supply of strength and vitality oftentimes results sooner or later in chronic invalidism, impaired organic action or nervous prostration, which the medical profession has found it impossible to overcome by drugs and therefore resort to electric treatments by the use of the Roche Electric Hygienic Machines. That electricity is the vital force which produces in the human body a condition of Health cannot be denied. The only question is: What is the best way to apply it? To this we cannot too highly recommend the Roche Electric Hygienic Machines. You can give yourself these health-giving treatments in the privacy of your own home and apply them more scientifically, with more success, than any paid operator and without the least trouble or inconvenience as is clearly illustrated in the charts and instructions which accompany each machine. It generates a mild, soothing current of electricity and supplies it to the body in a manner that is pleasant and you will enjoy and look forward to your treatments, which should be taken daily. The Roche Electric Hygienic Machines are Nature's Restorer, a great health-giving power which is today being used by thousands of intelligent, health-seeking men and women all over the world. Often sufferers in their own mind know that it is the Roche Electric Hygienic Machine they want, still they will permit themselves to be influenced by some cheap, worthless article which is sold under the name of an electric generator, or other cheap contraption and do not stop to realize in buying our machine that they have the advice of a man who has had years of hospital experience in giving hygienic treatments. This alone is oftentimes worth the price of the machine, and this is why we insist upon your filling out and returning the question blank, so that we may advise what current of electricity would be more suitable in your case.

Remember He's No Friend of The Roche Electric Hygienic Machine

Your Beauty Parlor at Home

DON'T SCREEN SOCIETY--BEAUTY DEPENDS UPON YOUR HEALTH

The Roche Electric Hygienic Machines will not only develop your body and overcome physical defects, but protects your hair, preventing baldness and not only restoring it to its natural color but also retaining same in this condition. Electricity is food for the impoverished follicles and is nourishment for the roots of the hair, killing the parasites and removing the dandruff in a few treatments. Eczema and other skin diseases confined to the scalp very readily respond to this form of treatment. The Roche Electric Hygienic Machines are more effective and more lasting than any other treatment you can give the scalp, making the most stubborn hair stay the way you comb it, and retain a smooth, dressy appearance. The cut shows a very remarkable new growth of hair after three months treatment.

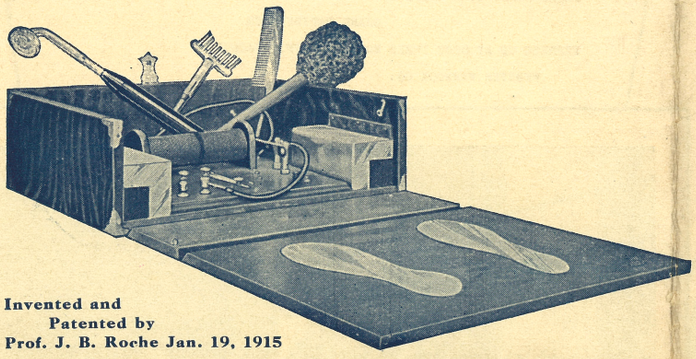
WB:EV

The ROCHE ELECTRIC HYGIENIC MACHINE is in a class by itself and differs from any other electric machine on the market. It is simple to operate and will last a lifetime.



Invented and Patented by Prof. J. B. Roche Jan. 19, 1915

A thirty day trial will convince anyone suffering from chronic ailments of its real merrits, as it has proven to the satisfied users who have kept the machine after trial, as is shown by these copies of original letters.

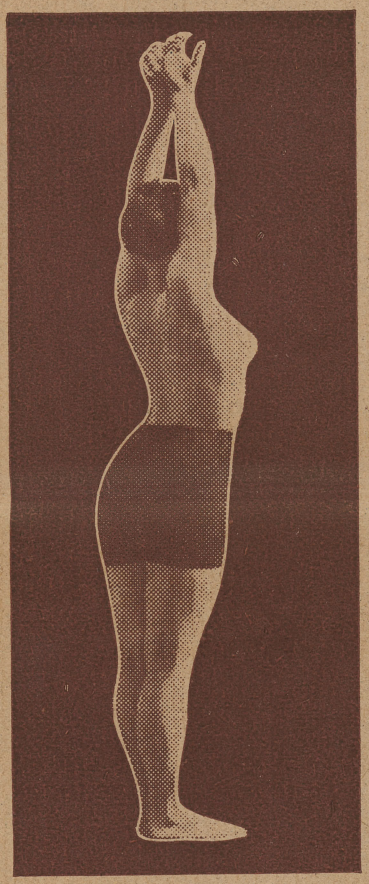
Beauty Depends

Upon Your Health

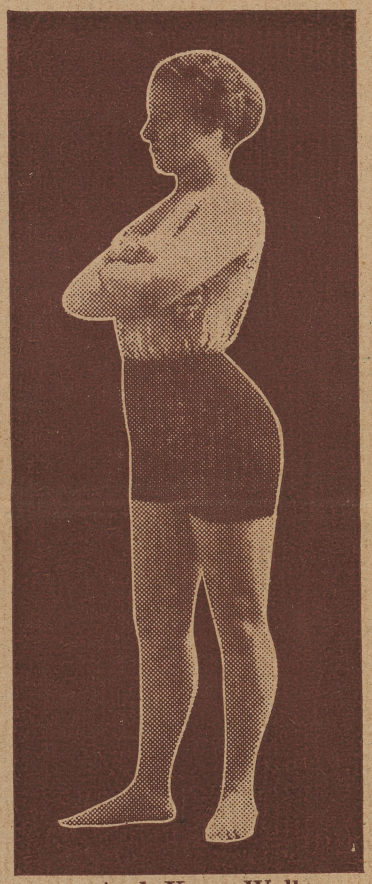


Be Well

HEALTH MEANS HAPPINESS

As she looks today after suffering from a spinal injury for seven years, three years of this time in a wheel chair and pronounced uncurable. Weighing less than 80 pounds when starting under Prof. Roche's hygienic treatment. Now weighing 150 pounds and stands as a sample, as the cut illustrates, of what the Roche Electric Machine has done for her. This lady met with this accident at Spokane, Wash., in the Hotel Review.

I positively guarantee this machine to keep you young and restore your youth, regardless how old you may be; it will do more for you than any hand manipulator or an hour of vigorous exercise. I assure you that this machine will strengthen your heart, stomach, your digestive organs and make them perform the duties assigned to them and make your liver and every other organ of your body know that they are alive.



And Keep Well

March 4, 19

Prof. J. B. Roche,
Roche Electric Machine Co.,

Dear Sir:

Have now been using the Electric Machine, I purchased from you, over two years, and am very much pleased with it. I have found it to be fine for removing gas from the stomach and severe rheumatic pains in my arms and legs.

Wishing you success always, I remain,

Sincerely,

Lena Tenckinck.

La Salle, Ill.
R. 3, Box 49,
March 4, 191

Roche Electric Machine Co.,
Grand Rapids, Mich.

Dear Sir:

Enclosed you will find a check for the remainder of the price of the machine which I have had on 30 days trial.

I have considered keeping the machine as it has been wonderful for me. I cannot praise it too highly.

When I received your machine I was in a terrible weak and nervous condition. I could scarcely walk I was so rundown and also with high blood pressure and also my stomach was in a bad condition. I could hardly eat anything and now eat heartily and care now also to go to bed and enjoy a good nights rest when before I could not sleep. I have doctored with so many doctors but got no relief.

I want to say you may refer any one to me in regards to your machine in the case of high blood pressure, nervousness, and weakness.

Respectfully yours,

Mrs. Anna Williams.

Box 33, Tacoma, Wash.
August 5, 1924.

Roche Electric Machine Co.,
Grand Rapids, Mich.

Gentlemen:—

I bought one of your machines while in Chicago and used it about a week while in that city. I have been using it every day since I got back to Tacoma. I had been troubled with rheumatism and varicose veins for some time and with less than a month's treatment the veins have nearly disappeared and the rheumatism is entirely gone, and I believe that I will be entirely cured when I have used it long enough to effect a permanent cure. I would not part with the machine at any price if I could not get another. I am sending you the name and address of Mr. Thos. S....., 1705 S. Y..... Ave., Tacoma. He has rheumatism in his hips and knees, and it is almost impossible for him to get around. If you will communicate with him, I know that you will sell him one of your machines. Wishing you success in relieving humanity, I remain,

Respectfully yours,

J. T. Gahagan.

Dear Sir:—

Find enclosed check for $45, for which express us at once another machine. The one recently purchased proved to be satisfactory to our client. Yours truly,

The Christian Health Institute.

94 Lakeview Ave., Clifton, N. J.,
August 5, 1924.

Roche Electric Machine Co.,
Grand Rapids, Mich.

Gentlemen:—

I feel it my duty to inform you that I am cured of all aches and pains caused by rheumatism and poor circulation. After using your Hygienic Electric Machine for only 4 months, I feel 25 years younger and believe me it feels good to be free from all aches and pains. Kindly send descriptive literature to the following: Mr. P. H. M....., 280 W..... Ave., New Haven, Conn.; Mr. J. E....., 97½ E..... St., New Haven, Conn.; Dr. S....., C..... Ave., Clifton, N. J.

Very truly yours,

F. A. Laue.

FROM REV. J. W. BREWER, VIENNA, GA.

August 7, 1924.

Roche Electric Machine Co.,
Grand Rapids, Mich.

Gentlemen:—

I have been using your machine for 30 days now and I find it all right. Enclosed you will find certified check for $40, balance due on the machine. Kindly notify the bank and return them the trial sale agreement. Say listen, a friend of mine came to my house and saw my machine, and he wants one. His address is Rev. D. H. Harris, Vienna, Ga. Please write him and send him some of your literature so that he may read for himself.

Yours respectfully,

J. W. Brewer, D. D.

Remember that Your Body must make its Repairs while Running

As illustrated by Prof. J. B. Roche, inventor of the Roche Electric Hygienic Machine, who has indulged in these same treatments for the past 35 years. Statistics show that he is physically better today than he was 20 years ago, when he took out his first policy with the New York Life, which has just matured.

As the old saying has it—"The Proof of the Pudding is in the Eating." At the age of 55, Prof. Roche takes out a new policy. Examination showing him to be perfect physically and the blood pressure of 120, that of a new born babe, as illustrated in the following unsolicited letter.

Grand Rapids, Mich.

Dear Professor Roche:

I beg to acknowledge receipt of your check for $360.90, being the first premium on Policy #6,378,376 for $5000 on the Ordinary Life Plan, for which I thank you.

It is worthy of note to call attention to the fact that your application and report of your examination were received at the Home Office on December 3rd, the policy issued on December 5th, and delivered to you on December 11th. The promptness with which the Company was able to consider your case was due to your present splendid physical condition, and it is a pleasure for me to be able to congratulate you on securing such speedy consideration. It might interest you to know that your blood pressure reading was 120.

With kindest regards, I remain,

Very truly yours,

Michael Leonard.

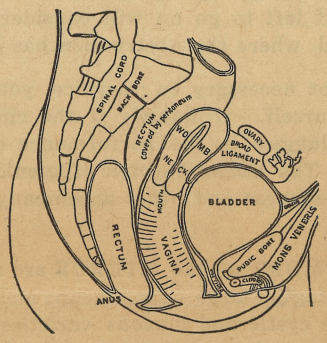
A Plain Talk to the Ladies

ABOUT THEMSELVES

Fig. 1

DERANGEMENTS OF THESE DELICATE ORGANS SHOULD BE GIVEN THE PROPER TREATMENT AT ONCE



A SERIOUS TROUBLE FREQUENTLY TUMORS OR CANCERS ARE THE RESULT OF NEGLECT

Outline of the Female Urinary and Generative Organs when in Normal Condition

The above cut will illustrate and give you a clear comprehension of the urinary and generative organs. By dividing that portion of the body through the middle from the front backward, we first cut through the cushion of fat, Mons Veneris, then in succession the Pubic Bone, Bladder, Womb, Vagina, Rectum, front half of Spine, Spinal Marrow, rear half of Spine and lastly the Muscles and Skin. Just underneath the bone in front is revealed that sensitive organ, a facsimile of the male organ in miniature, the head of which protrudes and is called the Clitoris. Further back is the urethra or water passage, which is about one and a half inches long. The Vagina, next in succession is usually closed by its mucous lining being folded in upon itself. On the vagina at the rear rests the Womb or Uterus. It is pear shaped and the small end protrudes into the vagina. On either side of the womb are the Fallopian Tubes leading to the Ovaries, where at every menstruation a germ-cell is thrown off, passing through the tubes into the uterine cavity.

These organs are very delicate and any weakened or diseased condition of the body may tend to derange them. The womb for instance, being in size and shape about that of the pear when in natural condition, may become inflamed and enlarged. By introduction of the finger into the vagina you can, when in a healthy condition just reach the opening of the womb. However, not one woman in five hundred is sound and therefore do not expect the findings to be as they should. In many cases were it not for the supporter worn, the womb would come out into the world.

This condition is all wrong and now it will be easy to explain why you suffer with those severe backaches and many other aches or pains similar to a sore and swollen finger or foot. The womb has become enlarged and burdened through the congested deposit of blood or serum. The womb then drags down of this weight, pulling on the cords holding it into place from the spine. The spine being the nerve center of the system and cannot endure even the slightest burden, communicates the pain, and that soreness across the lower part of the bowels are directly resultant from this derangement.

Something should be done, without hesitation to avoid serious trouble. Tumors, cancer or even death are some of the inevitable consequences. Let us give you some of our valuable and helpful aids and outline a course of hygiene for you in connection with the use of the Roche Electric Hygienic Machine. Its prompt use will surprise you. The treatments stimulate the circulation and soothe the affected parts. A fresh flow of blood being effected relieves that irritation and congestion. The entire system has been revitalized and you will feel yourself again.

Ovarian and Uterine Tumors the Result of Neglect

Herewith we purpose to show the characteristics of the most common tumors that affect the ovaries and uterus, but also explain a comparatively new but most effective treatment to avoid and relieve this trouble.

Fig. 2

OPERATIONS FAIL IN A GREAT MANY CASES

A BETTER TREATMENT WITH NO DEATH PENALTY CAN BE HAD

U—Uterus, B—Bladder, R—Rectum, T—Tumor

Ovarian tumors generally consist of one or more cysts or sacs developed within the ovary and filled with a fluid or semi-fluid matter, formed from the interior. They vary in size from a pea, whilst some have been found to contain many quarts of fluid.

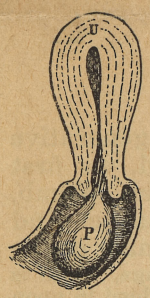
Don't Wait and Sacrifice Your Life

Fibroid tumors are a form of tumor of the uterus frequently met with. They are composed of fibrous tissue, identical in structure with that of the uterine wall. Oftentimes these tumors attain great size, capable of filling the entire cavity in the abdomen.

Tumors interfere with the operation of essential organs, by obstruction or pressure against them. In this way they cause prostration, debility and great pain, and if left to go on will considerably weaken the constitution and shorten life. Often hemorrhage of a severe nature is produced, where the obstruction has gained considerable intensity.

Don't wait until the last minute. It is not necessary to sacrifice yourself, but immediate treatment is necessary. Get our machine at once and begin treating yourself. Ordinarily if the circulation were perfect it would carry off these impurities, but just because the circulation is sluggish in the performance of its functions you must seek to improve this cause. Stimulate the circulation by the use of The Roche Electric Hygienic Machine and supply the want. A perfect harmony in the function of all organs, with pain, weakness and other accompanying inconveniences relieved, can be effected by the timely introduction of this proper treatment.

Fig. 3



U—Uterus, P—Polypus

POPUPI or POLYPOID TUMORS of the UTERUS are of three kinds, cystic mucous, and fibrous. They vary greatly in size, sometimes being as large as a teacup; and their point of attachment may be extensive, or consist only of small pedicle. The cystic and mucous varieties may spring from any portion of the mucous surface of the uterus, they are more frequently met with growing from the mucous membrane lining the cervical canal, and pendant from the mouth of the womb, as represented in Fig. 3. The most prominent symptoms of polypoid growths are hemorrhage, which is almost invariably present, leucorrhea, pain, backache, and a sense of weight or dragging in the pelvis. The best method of treatment and in fact the only treatment, to prevent and overcome, is by the local treatments in which you can give yourself by using our machine. These treatments are simple and beneficial and taken in time will prevent an operation.

DISEASES OF THE RECTUM

Daily we are receiving letters from those who are suffering from Piles, Fistula and other diseases of the rectum, asking information in regards to our machine.

Now we do not recommend this machine for piles or any other rectum trouble, outside of constipation, which is caused by the contraction of the Sphincter muscles. These muscles often contract and by the constant strain and irritation will bring on a form of Piles. We do recommend the machine for this trouble, and by massaging the rectum with the rectal electrode it relieves and removes the contraction of sphincter muscles, but we dare say and have letters to bear us out on this statement, that if you are a sufferer from piles you could not take a better treatment that will bring about the general results looked for than by the constant use of the Roche Electric Hygienic Machine. It has really been surprising, the letters we are receiving from people who have been practically cured of rectum trouble that they have suffered from for many years.

From a well known Wisconsin lady and the wife of a very prominent merchant:

> "After submitting to all kinds of local treatments and suffering from untold agony for three years, she was told by her physician that there was only one help for her and that was through an operation, claiming that she had a tumor, or in other words a large growth of the uterus. The uterus was so congested and swollen that it was nearly ten times its normal size, and that she must be operated on at once in order to save her life, but through Mr. Geo. Bee, a well known friend of the family, was recommended the Roche Electric Hygienic Machine and at once secured.
>
> "After carefully following out the Roche system of Hygiene for two months, the operation was forgotten, and for over 3 years she has been entirely free from her previous trouble and is now the mother of two babies."

This is just one of the many instances that comes to our observation daily.

Remember that full instructions go with each machine, showing you the simplicity and principle of operating the machine.

GOITRE

What is a goitre, why is it so common, especially among the females? This question has often been asked, and seven out of ten goitres that have been operated on are a failure, because they come back. Although usually neglected, because no great inconvenience is experienced, treatments should be taken to check the progress of this growth and to reduce it. For years goitres have been treated by electricity and it is the only safe and reliable method. Because it dissolves that fibre growth through the circulation, by so doing reduces the size of the neck. These treatments should be taken at least once a day. We have seen many wonderful results accomplished through the use of the Roche Electric Hygienic Machine.
